

The Tactile Periodic Table Project

Join us at the ACS Western Regional Meeting

Signia by Hilton, San Jose, CA

Saturday, Oct 25, 12 – 2 pm

Sunday, October 26, 9:00 am – 5:30 pm

Monday, October 27, 9:00 am until finished

- Promote **accessibility and inclusion** in chemistry.
- Contribute to an **educational tool** that supports STEM learning for visually impaired students.
- Learn about the ongoing efforts of the **ACS Committee on Chemists with Disabilities (CWD)** to create a more inclusive scientific community.

Be part of an interactive and meaningful activity!

You are invited to help assemble a tactile Braille periodic table.

This hands-on experience supports CWD's mission to make chemistry more accessible, inclusive, and engaging for individuals who are blind or visually impaired.

Make chemistry accessible for all.
